

# SMART WIRELESS VALVES

## Smart WIFI 30NM/24vdc Electric Actuator for ISO 5211 Direct Mount Ball Valves

### SWV-02

- ① 24vdc
- ② Mobile APP, using MCU microcomputer control technology;
- ③ Timing regularly closing and opening function;
- ④ Waterproof : IP67.

**Materials:** Actuator

**Valve Size:** Suitable for ISO 5211 x Din Valves  
F03 / F05 x 11mm Square

#### Frequency of Cloud Timing:

Minimum once a day, maximum unlimited times per day,  
the interval between  
the maximum period is once a week

#### Smart Timer:

App controls can be accurate to second,  
with longest setting time 23:59:59  
Cloud timing at least 1 minute, lasting longest 23:59

**Power:** 24vdc / 5mm. Supplied with Power Adapter/Cable

**Max Pressure Rating:** As per valve

**Max Temperature:** As per valve

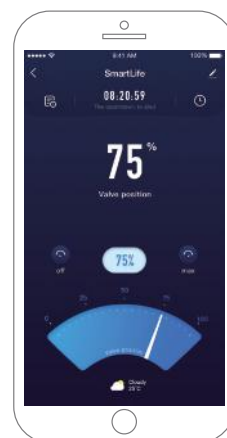

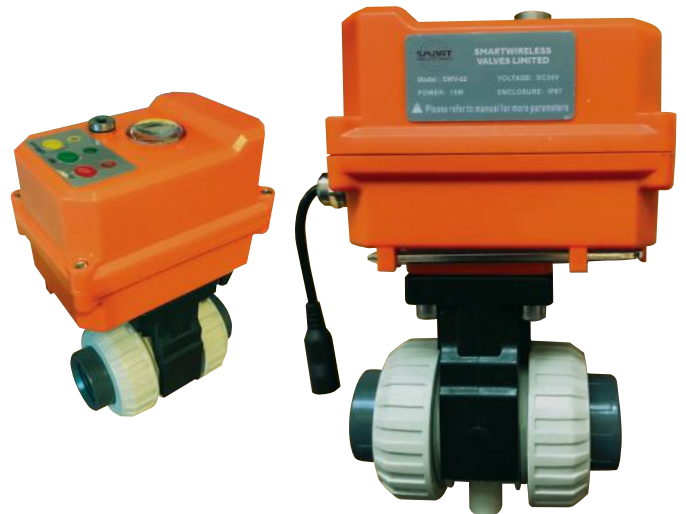

**Support Environment Temperature:** -5-65°C

#### Procedure:

multi-program, single program, general, multi days, single day

#### Controller Operation:

App manual control, Field manual operation, App cloud timing
